**Complaints:** 

Saturday:

### **Construction Sequencing:**

Which portion(s) (i.e. drainage basins) of the site have had a temporary or permanent cessation of grading, earthwork, or ground disturbance in the last 14 days?

Roth began mass grading the site (8/18/20), Site is inactive due to winter conditions (12/17/20). Storm and sewer installation began (7/12/21). Riser installation began (1/3/22). Basin fully installed (1/31/22). Grading for rest of paving began (04/04/22). Utility Installation began (04/25/22). Home building across the entire site began (3/8/23). Road improvements on 156th Street began (8/1/23). Road improvements along 156th Street were completed (4/2/24).

## Which portion(s) (i.e. drainage basins) of the site do not have grading, earthwork, or ground disturbance scheduled in the next 14 days?

Roth began mass grading the site (8/18/20), Site is inactive due to winter conditions (12/17/20). Storm and sewer installation began (7/12/21). Riser installation began (1/3/22). Basin fully installed (1/31/22). Grading for rest of paving began (04/04/22). Utility Installation began (04/25/22). Home building across the entire site began (3/8/23). Road improvements on 156th Street began (8/1/23). Road improvements along 156th Street were completed (4/2/24).

What temporary or permanent stabilization measures listed in this section are being implemented?

0.00"

Existing vegetation (8/18/20). Boyer Young seeded a majority of the site (4/23/21). Seeding of road improvement project completed (11/28/23).

**Checklist Questions:** 

Are receiving waters adjacent to the project free of any significant signs of erosion or sediment that would be associated with the construction activity?

No Create Corrective Action?

No, See findings section

lave disturbed areas been seeded or otherwise stabilized as required? List inactive portions of the project and if stabilization measure are adequate or needed to prevent erosion. Yes

Create Corrective Action?
N/A
Are waste materials (concrete, construction material, hazardous, etc.) being managed properly?
No
Create Corrective Action?
No, See BMP section
Are construction entrances and adjacent streets being maintained adequately?
No
Create Corrective Action?
No, See BMP section
Is dust associated with the construction activity adequately controlled on the site?
Yes
Create Corrective Action?
N/A
Comments:

# Comments:

The site was active for home building during the most recent inspection.

## Findings / Corrective Actions (Date):

Findings / Corrective Actions (Date): 1.) Some maintenance is needed in the BMP section.

2.) The construction entrance and all silt fence north of Kempten Creek Drive east of SB A is under the grading permit CSW-202307896. All maintenance and correspondence related to this project should be sent to Olsson engineering and Blade Master's Excavation and General Contracting. 3.) The culvert pipes in the road project should have all sediment removed from them prior to seeding and matting the area. K2 Construction was informed to complete by 12/5/23. Not done as of the last inspection. K2 Construction was reminded on 2/15/24, 3/14/24 Hubbell Homes was reminded on 4/3/24
