	ation measures listed in this section are b				in the next of the sector	
,	EM 1 partially installed (9/30/2019). D sodded (12/9/2020). ROW seeding b ).		•		•	

Checklist Questions: Are receiving waters adjacent to the project free of any significant signs of erosion or sediment that would be associated with the construction activity? No

Create Corrective Action? No - See BMP Section.

Have disturbed areas been seeded or otherwise stabilized as required? List inactive portions of the project and if stabilization measure are adequate or needed to prevent erosion.

Create	Corrective	Action
N/A		

Yes

Are waste materials (concrete, construction material, hazardous, etc.) being managed properly?

No Create Corrective Action?

No - See BMP Section.

Are construction entrances and adjacent streets being maintained adequately? No

Create Corrective Action? No - See BMP Section

Is dust associated with the construction activity adequately controlled on the site?

Yes Create Corrective Action?

N/A

Comments Comments:

1) Site was active for home construction and sewer installation during the last inspection.

2) Ashbury Hills Self Storage (CSW-202105789) is active on Lot 166 of the Ashbury Hills development as of 9/13/21.

## \*Due to snow cover during the 2/17/23 inspection, not all BMPs could be observed.

## Findings / Corrective Actions (Date):

Findings / Corrective Actions (Date):

1) Some maintenance is required in the BMP section.

2) E&A will monitor the removal of the inlet filters around the school project with the site stabilization. E&A inspector received an email from Tyson Smith with Lamp Rynearson /1/11/21 that they did not recommend putting inlet filters around the school. GPCS was informed to remove the inlet filters by 3/11/21. GPCS removed 5 inlet filters prior to the 3/24/21 inspection. As of 4/9/21 there are two inlet filters left by the school, E&A inspector will continue to monitor. GPCS was reminded on 4/30/21, 5/4/21, 5/6/21, 5/11/2021, 5/19/21, 5/30/21, 6/25/21, 7/14/21, 8/13/21, 9/10/21, 9/30/21. Peter Katt, Gene Graves, and Commercial Seeding were reminded on 10/14/21, 11/3/21, 12/08/22, 1/20/23 3) Trackout was observed on Horizon Street, S 124th Avenue, and S 125th Street where construction vehicles for the storm sewer installation in the west portion of the site have been accessing the area during the inspection on 2/02/23. Trackout should be cleaned up, and construction entrances should be installed or access restricted in these areas. The construction observer was contacted to inform the contractor to complete as weather conditions allow. Not done as of the last inspection. 4) CIR #18545 was received, reviewed, and sent to Graves Development on 2/16/23. The City's findings correspond with the E&A report.

Unique Name	Туре	Location	Projected Install Date	Status	Maintenance
A 1	Area Inlet Protection	R 16		Removed	
Current Condition:	Removed - Silt fence around	the inlet will not be recomme	nded as of 4/16/21 due to in	nlet leading to a se	diment basin.
B 1		North side of site (west of			
	Temporary Berm	SB 2)		Removed	
Current Condition:	Removed - DEJ Grading rem		ring the excavation of SB 5	prior to inspection	on 11/14/19.
B 2		Southwest side of site (NE		_	
	Temporary Berm	of SB 5)		Removed	d at this time. E&A will monitor.
Current Condition:	Removed - DEJ Grading rem	oved the berms prior to insp	ection on 12/18/19. The ber	ms are not needed	at this time. E&A will monitor.
05.4	Stabilized Construction
