Which portion(s) (i.e. drainage basins) of the	site have had a temporary o	or permanent cessation of g	rading, earthwork, or ground di	sturbance in the last 14 day	s?		
Entire site scheduled for grading in the inspection on 6/30/17. Minor grading to sites grading was completed (7/18/18). construction (10/9/18). Major grading construction (10/9/18).	be completed at a later The post construction b	time. Grading was activ asins were cleaned out	e on the southern portion o (9/18/18). The area west of	the site (7/2/18). The storage units was g	outheast portion of the raded for new		
Which portion(s) (i.e. drainage basins) of the	site do not have grading, ea	arthwork, or ground disturba	ince scheduled in the next 14 d	ays? :			
Entire site scheduled for grading in the next 2 weeks (4/28/17). Site stripped (5/17/17). Grading was underway (6/05/17). Grading was completed prior to the inspection on 6/30/17. Minor grading to be completed at a later time. Grading was active on the southern portion of the site (7/2/18). The southeast portion of the sites grading was completed (7/18/18). The post construction basins were cleaned out (9/18/18). The area west of the storage units was graded for new construction (10/9/18). Major grading complete, minor grading possible at a later date (5/8/19). ROW along road disturbed by water installation (12/31/19).							
What temporary or permanent stabilization m							
site (8/16/17). Prairie Construction insta of Building A was seeded and matted (units was seeded and matted (2/20/18)	Existing vegetation (4/28/17). Prairie Construction seeded the site (8/16/17). Prairie Construction installed erosion control matting on the northeast corner of the site (8/16/17). Prairie Construction installed erosion control matting on the south, east, and northern borders of the site BMPs EM1-EM5 (8/21/17). The area north of Building A was seeded and matted (12/13/17). The area North of building C was seeded and matted (1/10/18). The area along the entrance to the old storage units was seeded and matted (2/20/18). The inside slopes of the sediment basin were seeded and matted (4/18/19). The slopes to the east and south of the sediment basin were seeded and matted (4/18/19). The slopes to the east and south of the units was seeded and matted (9/18/18). The area around CS 1 was seeded (8/15/18). The area around both post construction basins and all storage units was seeded and matted (9/18/18).

Comments:							
The site was active for water installation	0	inspection(s). The store	ige units are open and oper	ating.			
Findings / Corrective Actions (Date):							
Findings / Corrective Actions (Date): Findings / Corrective Actions (Date): 1.) Some maintenance required in BMP Section. 2.) The ROW along the newly paved road leading to the radio tower needs to be stabilized. Commercial Seeding was informed to complete by 12/3/18. Not done as of the last inspection due to heavy snow. The inspector will remind Commercial Seeding when the seeding window opens in the spring of 2019. Geoff McGregor was reminded on 3/18/19, 4/11/19. Portions of the ROW vegetated prior to the inspection on 7/16/19. A large portion along Spruce Street west of the intersection with 156th Street still needs to be stabilized (lots 5&6). Geoff McGregor was reminded on 7/16/19, 8/13/19, 10/2/19, 12/6/19, 3/21/20 3.) Erosion along the ROW southwest of the entrance needs to be backfilled and stabilized. Geoff McGregor was informed to complete by 10/9/19. Not done as of the last inspection. Geoff McGregor was reminded on 12/6/19, 3/21/20
