Complaints:						

Which portion(s) (i.e. drainage basins) of the site have had a temporary or permanent cessation of grading, earthwork, or ground disturbance in the last 14 days?

Entire site scheduled for grading in the next 2 weeks (4/28/17). Site stripped (5/17/17). Grading was underway (6/05/17). Grading was completed prior to the inspection on 6/30/17. Minor grading to be completed at a later time. Grading was active on the southern portion of the site (7/2/18). The southeast portion of the sites grading was completed (7/18/18). The post construction basins were cleaned out (9/18/18). The area west of the storage units was graded for new construction (10/9/18). Major grading complete, minor grading possible at a later date (5/8/19). ROW along road disturbed by water installation (12/31/19). Western portion of site disturbed by water installation (5/25/20). Utility installation along Spruce Street (11/11/20).

Which portion(s) (i.e. drainage basins) of the site do not have grading, earthwork, or ground disturbance scheduled in the next 14 days? : Entire site scheduled for grading in the next 2 weeks (4/28/17). Site stripped (5/17/17). Grading was underway (6/05/17). Grading was completed prior to the

inspection on 6/30/17. Minor grading to be completed at a later time. Grading was active on the southern portion of the site (7/2/18). The southeast portion of the site grading was completed (7/18/18). The post construction basins were cleaned out (9/18/18). The area west of the storage units was graded for new construction (10/9/18). Major grading complete, minor grading possible at a later date (5/8/19). ROW along road disturbed by water installation (12/31/19). Western portion of site disturbed by water installation (5/25/20). Utility installation along Spruce Street (11/11/20).

What temporary or permanent stabilization measures listed in this section are being implemented?

Existing vegetation (4/28/17). Prairie Construction seeded the site (8/16/17). Prairie Construction installed erosion control matting on the northeast corner of the site (8/16/17). Prairie Construction installed erosion control matting on the south, east, and northern borders of the site BMPs EM1-EM5 (8/21/17). The area north of Building A was seeded and matted (12/13/17). The area North of building C was seeded and matted (1/10/18). The area along the entrance to the old storage units was seeded and matted (2/20/18). The inside slopes of the sediment basin were seeded and matted (4/18/19). The slopes to the east and south of the sediment basin were seeded and matted (8/10/18). The slopes to the east and south of the sediment basin were seeded and matted (8/10/18). The area around CS 1 was seeded (8/15/18). The area around both post construction basins and all storage units was seeded and matted (9/18/18). Seeding and matting along the ROW on storage unit tot and ROW along Hwy 30 (4/15/20).

Checklist Questions:

Are receiving waters adjacent to the project free of any significant signs of erosion or sediment that would be associated with the construction activity? Yes

Create Corrective Action?

N/A

Have disturbed areas been seeded or otherwise stabilized as required? List inactive portions of the project and if stabilization measures are adequate or needed to prevent erosion.

No

Create Corrective Action?

No - See Findings/Summary Section

Are waste materials (concrete, construction material, hazardous, etc.) being managed properly?

Yes

Create Corrective Action? N/A

11/1

Are construction entrances and adjacent streets being maintained adequately?

No

Create Corrective Action? No - See BMP Section

Is dust associated with the construction activity adequately controlled on the site?

Yes Create Corrective Action?

N/A

Comments

Comments:

The site was inactive during the most recent inspection. The storage units are open and operating.

Findings / Corrective Actions (Date):

Findings / Corrective Actions (Date):

1.) Some maintenance required in BMP Section.

2.) The ROW along the newly paved road leading to the radio tower needs to be stabilized. Commercial Seeding was informed to complete by 12/3/18. Not done as of the last inspection due to heavy snow. The inspector will remind Commercial Seeding when the seeding window opens in the spring of 2019. Geoff McGregor was reminded on 3/18/19, 4/11/19. Portions of the ROW vegetated prior to the inspection on 7/16/19. A large portion along Spruce Street west of the intersection with 156th Street still needs to be stabilized (lots 5&6). Geoff McGregor was reminded on 7/16/19, 8/13/19, 10/2/19, 12/6/19, 3/21/20, 4/15/20, 5/14/20, 5/28/20, 7/28/20, 9/11/20, 12/09/20, **3/05/21**

3.) Erosion along the ROW southwest of the entrance needs to be backfilled and stabilized. Geoff McGregor was informed to complete by 10/9/19. Not done as of the last inspection. Geoff McGregor was reminded on 12/6/19, 3/21/20, 4/15/20, 5/14/20, 5/28/20, 7/28/20, 9/11/20, 12/09/20, 3/05/21

Unique Name	Туре	Location	Projected Install Date	Status	Maintenance
CE1	Construction Entrance	N. 156th Street		Removed	
Current Condition:	Removed - The temporary construction entrance was removed prior to the inspection on 7/16/18.				
CE 2	Construction Entrance	N. 156th Street		Removed	
Current Condition:	Removed - Prairie Construction paved the entrance prior to the inspection on 5/14/18.				
CW 1	Concrete Washout	On Site		Removed	

Current Condition:		ent level paving appears	complete as of 11/6/19. Fu	ture concrete work will b	e handled on a lot by
D 1	lot basis. Diversion	North side of Site		Removed	
Current Condition:			to heavy vegetation is no lo		nspection on 5/22/18.
D 2	Diversion	South East site of Site		Removed	
Current Condition:	Removed - The diversi	on has silted in, but due	to heavy vegetation is no lo	onger needed as of the in	nspection on 5/22/18.
D 3	Diversion	South side of site		Removed	
Current Condition:	Removed - Due to the	storm sewer being instal	lled the diversion is no long	er needed as of the insp	ection on 5/22/18.
D 4	Diversion	North of SB 2		Removed	
Current Condition:	Removed - Due to the Erosion Control	storm sewer being instal	lled the diversion is no long	er needed as of the insp	ection on 4/18/19.
