## Construction Sequencing:

Which portion(s) (i.e. drainage basins) of the site have had a temporary or permanent cessation of grading, earthwork, or ground disturbance in the last 14 days?

Entire site scheduled for grading in the next 2 weeks (4/28/2017). Site stripped (5/17/2017). Grading was underway (6/05/2017). Grading was completed prior to the inspection on 6/30/2017. Minor grading to be completed at a later time. Grading was active on the southern portion of the site (7/2/2018). The southeast portion of the site grading was completed (7/18/2018). The post construction basins were cleaned out (9/18/2018). The area west of the storage units was graded for new construction (10/9/2018). Major grading complete, minor grading possible at a later date (5/8/2019). ROW along road disturbed by water installation (12/31/2019). Western portion of site disturbed by water installation (5/25/2020). Utility installation along Spruce Street (11/11/2020).

Which portion(s) (i.e. drainage basins) of the site do not have grading, earthwork, or ground disturbance scheduled in the next 14 days?

Entire site scheduled for grading in the next 2 weeks (4/28/2017). Site stripped (5/17/2017). Grading was underway (6/05/2017). Grading was completed prior to the inspection on 6/30/2017. Minor grading to be completed at a later time. Grading was active on the southern portion of the site (7/2/2018). The southeast portion of the site grading was completed (7/18/2018). The post construction basins were cleaned out (9/18/2018). The area west of the storage units was graded for new construction (10/9/2018). Major grading complete, minor grading possible at a later date (5/8/2019). ROW along road disturbed by water installation (12/31/2019). Western portion of site disturbed by water installation (5/25/2020). Utility installation along Spruce Street (11/11/2020).

What temporary or permanent stabilization measures listed in this section are being implemented?

Existing vegetation (4/28/2017). Prairie Construction seeded the site (8/16/2017). Prairie Construction installed erosion control matting on the northeast corner of the site (8/16/2017). Prairie Construction installed erosion control matting on the south, east, and northern borders of the site BMPs EM1-EM5 (8/21/2017). The area north of Building A was seeded and matted (12/13/2017). The area North of Building C was seeded and matted (1/10/2018). The area along the entrance to the old storage units was seeded and matted (2/20/2018). The inside slopes of the sediment basin were seeded and matted (2/20/2018). The slopes to the east and south of the sediment basin were seeded and matted (8/10/2018). The area around CS 1 was seeded (8/15/2018). The area around both post construction basins and all storage units was seeded and matted (9/18/2018). Seeding and matting along the ROW on storage unit lot and ROW along HWY 30 (4/15/2020). Seeding and matting over SB 1 outlet pipe and ROW of N. 156th Street (4/14/2022).

## **Checklist Questions:**

Are receiving waters adjacent to the project free of any significant signs of erosion or sediment that would be associated with the construction activity?

No

#### Create Corrective Action?

No - See BMP Section (SB 1).

Have disturbed areas been seeded or otherwise stabilized as required? List inactive portions of the project and if stabilization measures are adequate or needed to prevent erosion.

Yes

### **Create Corrective Action?**

N/A

Are waste materials (concrete, construction material, hazardous, etc.) being managed properly?

Yes

### **Create Corrective Action?**

N/A

### Are construction entrances and adjacent streets being maintained adequately?

Yes

# Create Corrective Action?

N/A

#### Is dust associated with the construction activity adequately controlled on the site?

Yes

### **Create Corrective Action?**

N/A

#### Comments:

#### Comments

The site was inactive during the most recent inspection. The storage units are open and operating.

### Findings / Corrective Actions (Date)

## Findings / Corrective Actions (Date):

1.) Some maintenance required in BMP Section.

Unique Name	Туре	Location	Projected Install Date	Status	Maintenance
CE1	Construction Entrance	N. 156th Street		Removed	
Current Condition:	Removed - The temporary construction entrance was removed prior to the inspection on 7/16/18.				
CE 2	Construction Entrance	N. 156th Street		Removed	
Current Condition:	Removed - Prairie Construction paved the entrance prior to the inspection on 5/14/18.				
CW 1	Concrete Washout	On Site		Removed	
Current Condition:	Removed - Development level paving appears complete as of 11/6/19. Future concrete work will be handled on a lot by				
	lot basis.				
D 1	Diversion	North side of Site		Removed	
Current Condition:	Removed - The diversion has silted in, but due to heavy vegetation is no longer needed as of the inspection on 5/22/18.				
			-	_	•

D 2	Diversion	South East site of Site		Removed	
Current Condition:	Removed - The diversi	on has silted in, but due	to heavy vegetation is no lo	onger needed as of the i	nspection on 5/22/18.
D 3	Diversion	South side of site		Removed	
Current Condition:			led the diversion is no longe		ection on 5/22/18.
D 4	Diversion	North of SB 2	led the diversion is no longe	Removed	action on 4/19/10
Current Condition:	Erosion Control	storm sewer being instal T	lea the diversion is no longe	er needed as or the insp I	ECIION ON 4/16/19.
EC 1	Transition Matting	Outfall of SB 1	4/14/2022	Active	No

				ı			
SF 7	Cilt Fance	East side of site at the intersection of 156th and Spruce Streets		Removed			
	Silt Fence	· · · · · · · · · · · · · · · · · · ·					
Current Condition:	Removed - The straw wattle decomposed prior to the inspection on 4/14/22. Due to stabilization in the area, reinstallation will not be recommended.						
SB 1	Sediment Basin	SW corner of the site	5/5/2017	Active	Yes		
Current Condition:	Fair Condition - 40% full - Prairie Construction installed the inlet prior to the inspection on 3/24/18. Geoff McGregor backfilled and seeded/matted the erosion over the outfall pipe prior to the inspection on 4/14/22.  1.) The cleanout mark should be painted on the riser.						
	2.) Several extra dewatering holes below the approved height need to be patched.  1.) Prairie Construction and Geoff McGregor were informed to complete by 4/18/19. Not done as of the last inspection. Geoff McGregor was reminded on 6/05/19, 7/16/19, 8/13/19, 10/2/19, 12/6/19, 3/21/20, 4/15/20, 5/14/20, 5/28/20, 7/28/20, 9/11/20, 12/09/20, 3/05/21, 6/26/21, 2/17/22, 7/6/2022, 8/30/22, 11/22/22  2.) Prairie Construction and Geoff McGregor were informed to complete by 4/18/19. Not done as of the last inspection. Geoff McGregor was reminded on 6/05/19, 7/16/19, 8/13/19, 10/2/19, 12/6/19, 3/21/20, 4/15/20, 5/14/20, 5/28/20, 7/28/20, 9/11/20, 12/09/20, 3/05/21, 6/26/21, 2/17/22, 7/6/2022, 8/30/22, 11/22/22						
SB 2	Sediment Basin	SE corner of the site		Removed			
Current Condition:	Removed - Due to an ι	pdated SWPPP this bas	sin is no longer needed prior	r to the inspection on 6/3	30/17.		
ST 1	Sediment Trap	NE corner of site	6/30/2017	Active	No		
Current Condition:	Good Condition - 30%	filled. Prairie Construction	on installed the silt trap prior	r to the inspection on 6/3	30/17.		
ST 2	Sediment Trap	East corner of site	6/30/2017	Active	No		
Current Condition:	Good Condition - 30%	filled. Prairie Construction	on installed the silt trap prior	r to the inspection on 6/3	30/17.		
ST 3	Sediment Trap	SE corner of site	6/30/2017	Active	No		
Current Condition:	Good Condition - 30%	filled. Prairie Construction	on installed the silt trap prior	r to the inspection on 6/3	30/17.		
ST 4	Sediment Trap	SE corner of site	6/30/2017	Active	No		
Current Condition:	Good Condition - 49% filled - Prairie Construction installed the silt trap prior to the inspection on 6/30/17. The silt trap was mistakenly removed from the report.						
SW 1	Straw Wattle	North of Building C		Removed			
Current Condition:	Removed - Prairie Con 9/25/18.	struction removed the wa	attles due to seeding and m	natting of the area as of t	he inspection on		
		South Side of Building					
SW 2	Straw Wattle	С		Removed			
Current Condition:	Removed - Prairie Con 9/18/18.	struction removed the wa	attles due to seeding and m	natting of the area as of t	he inspection on		
STR	Streets	On Site	4/28/2017	Active	No		
Current Condition:	Good Condition - The interior streets were cleaned by Geis Inc. prior to the inspection on 6/04/19. The intersection of 156th & Spruce Streets was free of sediment during the inspection on 4/15/20. The street was cleaned prior to the inspection on 7/12/21.						
SWPPP Sign	SWPPP Sign	N. 156th Street	6/24/2017	Active	No		
Current Condition:	Good Condition - The i	nspector installed the SV	VPPP sign prior to the inspe	ection on 9/5/17.
