Current Condition:	Fair Condition - John Caniglia began construction on the lot prior to the 1/28/20 inspection, lot is relatively flat, no BMPs are recommended at this time. JKC removed the dirt piles from the ROW and installed silt fence on the southwest corner of the lot prior to the 3/24/20 inspection.						
	Concrete waste needs to be cleaned up from the northwest portion of the lot.						
	JKC was informed to complete by 4/28/20. Not done as of the last inspection.						
Lot 10	Individual Lot	Lot 10	4/21/2020	Active	Yes		
Current Condition:	Fair Condition - Landmark installed silt fence along the south side and rear of the lot prior to the 4/21/20 inspection. Landmark began construction on the lot prior to the 4/27/20 inspection. Landmark cleaned up the concrete waste prior to the 5/25/20 inspection. Minor sediment has accumulated behind the silt fence in the rear of the lot as of the 6/19/20 inspection, the inspector will monitor. 1.) Silt fence needs to be repaired in the front corner of the lot. 2.) Sediment needs to be cleaned up behind the silt fence in the rear of the lot to prevent discharge onto the adjoining lots. 3.) An additional run of silt fence should be installed a few feet back from the rear silt fence to prevent sediment discharge to the adjoining lots. 1.) Landmark was informed to complete by 6/8/20. Not done as of the last inspection. Landmark was reminded on 7/2/20. 2.) Landmark was informed to complete by 7/8/20.						
	3.) Landmark was informe		20.
