Grading has begun on Gallery 23 East project in Phases I, II, and III (8/2017). Major cessation of grading has occurred on Gallery 23 East project and minor grading will occur on Gallery 23 East (8/30/2018). Grading for water installation on NW perimeter and along Rd 25 (10/23/18). Grading has temporarily ceased (1/10/19). Grading in the NE corner of site for sanitary installation (4/5/19). Grading for roads (6/4/19). Grading for utilities, storm, and roads throughout project (6/17/19). Excavation along southwest portion ROW for gas installation (6/18/19). Excavation in the southeast portion of the site for utilities (6/18/19). Excavation throughout the site for gas installation (6/24/19).

Lift Station and Sanitary Force Main grading/excavation began (7/23/2018). Minor grading to be completed at a later date.

Water improvements grading/excavation has begun (10/9/18). Grading has temporarily ceased (1/10/19). Grading occurred in between Hwy 30 and Menards to still water main between last inspection (2/7/19) and current inspection (2/20/19), but grading had ceased at time of inspection. Grading along Hwy 275 (4/5/19). Grading for water main project has ceased (4/19/19)

Highway 30 intersection improvements have not begun as of last inspection.

Which portion(s) (i.e. drainage basins) of the site do not have grading, earthwork, or ground disturbance scheduled in the next 14 days?:

Grading has begun on Gallery 23 East project in Phases I, II, and III (8/2017). Major cessation of grading has occurred on Gallery 23 East project and minor grading will occur on Gallery 23 East (8/30/2018). Grading for water installation on NW perimeter and along Rd 25 (10/23/18). Grading has temporarily ceased (1/10/19). Grading in the NE corner of site for sanitary installation (4/5/19). Grading for roads (6/4/19). Grading for utilities, storm, and roads throughout project (6/17/19). Excavation along southwest portion ROW for gas installation (6/18/19). Excavation in the southeast portion of the site for utilities (6/18/19). Excavation throughout the site for gas installation (6/24/19).

Lift Station and Sanitary Force Main grading/excavation began (7/23/2018). Minor grading to be completed at a later date.

Water improvements grading/excavation has begun (10/9/18). Grading has temporarily ceased (1/10/19). Grading occurred in between Hwy 30 and Menards to still water main between last inspection (2/7/19) and current inspection (2/20/19), but grading had ceased at time of inspection. Grading along Hwy 275 (4/5/19). Grading for water main project has ceased (4/19/19)

Highway 30 intersection improvements have not begun as of last inspection.

What temporary or permanent stabilization measures listed in this section are being implemented?

Existing vegetation (8/30/2018). Seeding and matting in ditch for sanitary lift main (9/19/18). Seeding around banks of E side of lake (11/6/18).

Summary Questions:

Are approved entrances and adjacent streets being maintained adequately?

No - See BMP Section

Are receiving waters adjacent to the project free of any significant signs of erosion or sediment that would be associated with the construction activity?

Yes

Checklist Questions:

Are waste materials (concrete, construction material, hazardous, etc.) being managed properly?

No - See Findings Section

Is dust associated with the construction activity adequately controlled on the site?

Yes

Comments:

Comments:

The site was active during the last inspection for the Gallery 23 East project for paving, storm, and utility installation. The majority of the site has vegetated with weeds, so site will not be seeded at this time.

Lift Station and Sanitary Force Main projects are nearing completion. Work is occurring on the southeast intersection of County Road U and the project. County Road U Blvd and East 16th Street ditches will be stabilized in the coming weeks as of 8/30/2018. E&A will continue to monitor. Street ditches were seeded and matted prior to inspection on 9/19/18.

Water Improvements project has begun as of last inspection. Dirt piles from water main improvement project are being moved over to Gallery 23 East project in low areas. Dirt will be spread at a later date (2/7/19). Water project was inactive during last inspection. All HR Bookstrom equipment was removed from the site prior to inspection on 5/20/19.

Highway 30 intersection improvements project not active as of the last inspection.

Findings / Corrective Actions (Date):

Findings / Corrective Actions (Date):

- 1. See BMP section for required maintenance.
- 2. Diesel fuel tanks need to be bermed on site as of 8/30/2018. Pruss Excavation will be informed to complete by 9/6/2018. Not done as of last inspection. Thompson Construction was informed to complete by 10/16/18. Not done as of last inspection. Thompson Construction was reminded on 3/27/19, 5/3/19, 6/18/19.
- 3. The portable toilet on site needs to be secured. E&A inspector informed Jim Hammit to inform Thompson Construction to complete by 5/10/19. Not done as of the last inspection. The portable toilet was knocked over prior to inspection on 5/28/19. Portable toilet needs to be picked up and secured. Thompson Construction was informed to complete by 6/4/19. The portable toilet was picked up prior to inspection on 6/3/19. Thompson was reminded to secure the portable toilet on 6/18/19, 7/8/19.
- 4. The water main project areas need to be stabilized due to lack of activity in the area. Per a conversation with Jim Hammit of E&A Consulting Group, HR Bookstrom is aware of the stabilization needed and will be performing the maintenance soon. E&A will monitor. No signs of seeding as of the last inspection. HR Bookstrom was reminded on 6/18/19.
- 5. The fuel tank on site is missing a plug that needs to be installed. Thompson Construction was informed to complete by 6/24/19. **Not done as of the last inspection. Thompson Construction was reminded on site during inspection on 7/8/19.**
