Complaints:

Construction Sequencing:

Which portion(s) (i.e. drainage basins) of the site have had a temporary or permanent cessation of grading, earthwork, or ground disturbance in the last 14 days?

Grading began in spring 2021; Entire site graded by fall 2021 (3/17/22). Grading in the northeast quarter of the site (5/17/22).

Grading began in spring 2021; Entire site graded by fall 2021 (3/17/22). Grading in the northeast quarter of the site (5/17/22).

Existing vegetation (3/17/22). Slope along SW corner of the site seeded / matted in fall 2021 (3/17/22). Area west of Lot 33 and Lot 61 seeded / matted (3/29/22). North side of Silver Lane and east side of Copper Mountain Drive seeded / matted (3/29/22). South side of Silver Lane and west side of Copper Mountain Drive seeded / matted (4/5/22). Rear of Lots 58 - 60 partially seeded / matted (4/5/22). Disturbed area behind Lots 38 - 40 seeded / matted (4/5/22). Lots 34-40 and 59-61 sodded (4/12/22). Rear of Lots 55 - 57 seeded / matted (7/26/22).

Checklist Questions:

Are receiving waters adjacent to the project free of any significant signs of erosion or sediment that would be associated with the construction activity?

Yes

Create Corrective Action?

Have disturbed areas been seeded or otherwise stabilized as required? List inactive portions of the project and if stabilization measure are adequate or needed to prevent erosion

Create Corrective Action?

Are waste materials (concrete, construction material, hazardous, etc.) being managed properly?

Create Corrective Action?

Are construction entrances and adjacent streets being maintained adequately?

Create Corrective Action?

Is dust associated with the construction activity adequately controlled on the site?

Yes		
Create Corrective Action?		
N/A		
Comments:		
Comments:		
1.) Site was active during the last inspection.		

Findings / Corrective Actions (Date):

Findings / Corrective Actions (Date):

- 1.) Some maintenance is required in the BMP section.
- 2.) E&A began inspecting the site on 3/17/22 after being contracted for SWPPP services by Neal Drickey.
- 3.) All disturbed areas, located north of active lots, that are not scheduled for imminent work should be temporarily stabilized. Neal Drickey was informed to complete by 3/24/22. Not done as of last inspection. Neal Drickey seeded/matted the ROW on the east side of Copper Mountain Drive prior to the 3/29/22 inspection. Neal Drickey seeded/matted the ROW on the west side of Copper Mountain Drive prior to the 4/5/22 inspection. E&A inspector will continue to monitor. Neal Drickey was reminded on 4/21/22, 5/24/22, 6/24/22, 7/20/22. Grading and dirt work are taking place in this area as of the 7/26/22 inspection and stabilization is no longer recommended. E&A inspector will continue to monitor.
- 4.) The erosion rills should be repaired by CE 1, behind lots 54 57, and along the disturbed slope behind lot 35. The disturbed areas should be stabilized. Neal Drickey was informed to complete by 7/26/22. Neal Drickey repaired the erosion rills behind lots 55-57 and seeded/matted the slope prior to the 7/26/22 inspection. The erosion rills by CE and behind lot 35 have not been stabilized as of last inspection. Neal Drickey was reminded on 8/3/22
