Complaints:	None				
Construction Sequencing:	ns) of the site have had a temporary or	normanent connection of grading	earthwork or ground disturbs	unce in the last 14 days	,
				ince in the last 14 days:	
Grading began (11/29/23). But	ilding Construction began (12/27/	(4). Sanitary installation	124124).		

Which portion(s) (i.e. drainage basins) of the site do not have grading, earthwork, or ground disturbance scheduled in the next 14 days?

Grading began (11/29/23). Building Construction began (12/27/23). Sanitary installation (4/24/24).

What temporary or permanent stabilization measures listed in this section are being implemented?

Existing vegetation (11/29/23).

## **Checklist Questions:**

Are receiving waters adjacent to the project free of any significant signs of erosion or sediment that would be associated with the construction activity?

## Create Corrective Action?

No. See BMP Section

Have disturbed areas been seeded or otherwise stabilized as required? List inactive portions of the project and if stabilization measure are adequate or needed to prevent erosion.

Yes

**Create Corrective Action?** 

Are waste materials (concrete, construction material, hazardous, etc.) being managed properly?

Yes

**Create Corrective Action?** 

N/A

Are construction entrances and adjacent streets being maintained adequately?

**Create Corrective Action?** 

No, See BMP Section. Is dust associated with the construction activity adequately controlled on the site?
Yes
Create Corrective Action?

N/A

Comments:

Comments:

Site was active for building construction during the last inspection.

Findings / Corrective Actions (Date):
Findings / Corrective Actions (Date):
Some maintenance is required in the BN

	ed in the BMP section.
