Entire site; grading completed and stab	ilized prior to Spring	g 2005.			
Which portion(s) (i.e. drainage basins) of the si	ite do not have grading,	earthwork, or ground distur	bance scheduled in the ne	kt 14 days? :	•
Entire site; grading completed and stab	ilized prior to Spring	2005.			
What temporary or permanent stabilization me	asures listed in this sec	ction are being implemented	?		
Dense Vegetation, seeding/sodding, ma	atting, Re-seeding s	5/2006, paving, and land	dscaping.		
Summary Questions:	•	•	•	•	•
Are approved entrances and adjacent streets b	eing maintained adequ	ately?			
No					
Are receiving waters adjacent to the project from	ee of any significant sig	ins of erosion or sediment th	nat would be associated wi	th the construction act	ivity?
Yes					
Checklist Questions:	•		•	•	·
Are waste materials (concrete, construction ma	aterial, hazardous, etc.)	being managed properly?			
Yes					
Is dust associated with the construction activit	y adequately controlled	I on the site?			
Yes					
0 1 -		•			

## Comments:

## Comments:

Home construction is active on a few lots. Zach Jilek visited the site on 8/17/16 to address new complaints by Boyer Young and the Golf Course on the site. See Findings / Corrective actions for more details.

## Findings / Corrective Actions (Date):

## Findings / Corrective Actions (Date):

- 1) Some maintenance is required in the BMP section.
- 2) Lot 35 has a fair amount of concrete debris deposited by some home owner. During the next inspection, E&A will determine which house repaved their driveway or sidewalk and contact the appropriate persons involved. E&A was able to determine that the concrete was from street repairs. The Iron Horse Golf Club requested that the debris be placed on that lot as they would be used as rip rap in the near future.
- repairs. The Iron Horse Golf Club requested that the debris be placed on that lot as they would be used as rip rap in the near future.

  3) Lot 119/120 has a silt fence in the rear of the lot. This silt fence was installed prior to E&A's takeover of the project and the lot was previously completed. Downspouts from the roofs are causing erosion on the slopes depositing silt on the golf course. Inspector will now monitor the area.

  4) Lot 109/110 has a sediment basin with a riser that was present before E&A took over the project. The lots were completed prior to takeover,
- and no plans were known of the basin. The basin was full of sediment, up to the trash rack on the riser, and was spilling over causing minor deposition of silt on the golf course below. Inspector will now monitor the area. **See SB1.**
- 5) Lot 80 has an area inlet that is being eroded around and the outfall has some erosion. Inspector will monitor the area.
- 6) Lot 94 has a gazebo which was built into the existing berm disrupting storm water drainage in the area. Inspector will monitor the erosion in the area.
- 7) Lot 200 has erosion in the back yard possibly due to improper drainage. Inspector will continue to monitor the area.

			Projected Install			
Unique Name	Type	Location	Date	Status	Maintenance	
Lot 7	Silt Fence	Lot 7		Removed		
Current Condition:	Removed-The lot is sodded and there are no signs of runoff in the golf course turf as of inspection on					
	4/20/15.					
Lot 8	Silt Fence	Lot 8	4/20/2015	Active	Yes	
Current Condition:		ence and Gator Guard			tion on 4/20/15.	
	The silt fence is damaged and Gator Guard is full as of inspection on 4/20/15.  PHI was requested to repair or remove the BMPs by 4/27/15. Not done as of last inspection. PHI was reminded on 3/3/2016. PHI was reminded on 8/8/16.

Current Condition:	Good Condition						
SB 1	Sediment Basin	Lot 109	In Place	Active	No		
Current Condition:	Good Condition- The sediment basin was not known of when E&A took over the project and was covere by dense vegetation. It was discovered when looking at problems silting in the golf course. Boyer Young removed the trash rack and cleaned out the basin prior inspection on 8/31/16 as the basin had no water storage or sediment capacity.						
SF 3	Silt Fence	Lot 197	In Place	Active	Yes		
Current Condition:	Fair Condition  Silt fence on lot 197 is down/damaged and needs to be repaired or it can be removed.  (See previous reports) The E&A inspector will remove during a later inspection.
