Which portion(s) (i.e. drainage basins) of the	site have had a tempo	ary or permanent cessation	of grading, earthwork, or group	d disturbance in the la	ist 14 days?
	She have had a tempor	ary or permanent occounter	ror grading, caramont, or groun		ist 14 days.
Entire site; grading completed and stal					
Which portion(s) (i.e. drainage basins) of the Entire site; grading completed and stal	-		sturbance scheduled in the next '	14 days? :	
What temporary or permanent stabilization m			ed?		
Dense Vegetation, seeding/sodding, m	natting, Re-seeding	5/2006, paving, and lan	dscaping.		
Summary Questions:					
Are approved entrances and adjacent streets Yes	being maintained adec	juately?			
Are receiving waters adjacent to the project	free of any significant s	signs of erosion or sedimen	t that would be associated with t	he construction activi	ty?
Yes					
Checklist Questions: Are waste materials (concrete, construction r	naterial hazardous etc	) being managed properly	?		
No, see BMP section		s., being managed property	•		
Is dust associated with the construction activ	vity adequately controll	ed on the site?			
Yes					
Comments:					
Comments:					
Home construction is active on a few lo	ots.
