## Create Corrective Action?

N/A

Are construction entrances and adjacent streets being maintained adequately? No Create Corrective Action? No, See BMP section

Is dust associated with the construction activity adequately controlled on the site?
No
Create Corrective Action?

Create Corrective Action? Yes, See Findings section

## Comments:

Comments:

The site was active for storm sewer installation during the last inspection.

Findings / Corrective Actions (Date):

Findings / Corrective Actions (Date):

1.) Some maintenance is required in the BMP section at this time.

2.) Site should be watered down to control dust on site. HRC Development was informed to complete by 11/21/23.

3.) All bare areas on-site that have been inactive for 14 days should be seeded. HRC Development was informed to complete by 11/21/23.
