## **Construction Sequencing:**

Which portion(s) (i.e. drainage basins) of the site have had a temporary or permanent cessation of grading, earthwork, or ground disturbance in the last 14 days?

Roth began mass grading the site (8/18/20), Site is inactive due to winter conditions (12/17/20). Storm and sewer installation began (7/12/21). Riser installation began (1/3/22). Basin fully installed (1/31/22). Grading for rest of paving began (04/04/22). Utility Installation began (04/25/22). Home building across the entire site began (3/8/23). Road improvements on 156th Street began (8/1/23). Road improvements along 156th Street were completed (4/2/24). The trail project along Kempten Creek Drive began (7/9/2024).

## Which portion(s) (i.e. drainage basins) of the site do not have grading, earthwork, or ground disturbance scheduled in the next 14 days?

Roth began mass grading the site (8/18/20), Site is inactive due to winter conditions (12/17/20). Storm and sewer installation began (7/12/21). Riser installation began (1/3/22). Basin fully installed (1/31/22). Grading for rest of paving began (04/04/22). Utility Installation began (04/25/22). Home building across the entire site began (3/8/23). Road improvements on 156th Street began (8/1/23). Road improvements along 156th Street were completed (4/2/24). The trail project along Kempten Creek Drive began (7/9/2024).

## What temporary or permanent stabilization measures listed in this section are being implemented?

Existing vegetation (8/18/20). Boyer Young seeded a majority of the site (4/23/21). Seeding of road improvement project completed (11/28/23).

## **Checklist Questions:**

Are receiving waters adjacent to the project free of any significant signs of erosion or sediment that would be associated with the construction activity?

No

Create Corrective Action?

No, See findings section

lave disturbed areas been seeded or otherwise stabilized as required? List inactive portions of the project and if stabilization measure are adequate or needed to prevent erosion.

Yes

Create Corrective Action?					
N/A					
14/7					
Are waste materials (concrete, construction m	aterial, hazardous, etc.) being man	aged properly?			
No					
Create Corrective Action?					
No, See BMP section					
Are construction entrances and adjacent stree	ets being maintained adequately?				
No					
Create Corrective Action?					
No, See BMP section					
Is dust associated with the construction activi	ty adequately controlled on the site	e?			
Yes					
Create Corrective Action?					
N/A					
Comments:					
Comments:					
The site was active for home building a	and trail work during the most	recent inspection.
