Comments:				

## Comments

## Comments:

Site is stabilized with vegetative cover. Utility construction has been completed on site. No activity on site during last inspection.

## Findings / Corrective Actions (Date):

## Findings / Corrective Actions (Date):

1) A few lot corner silt fence was damaged by the utility company and needs to be replace. On 9/15/08 Developer Mike Kucera was emailed and informed that maintenance needs to be completed and was given the option to line up his own maintenance or to have us line up the maintenance for him. Once this is determined maintenance will be lined up accordantly.

2) Some maintenance is required in the BMP section.
