Construction Sequencing:																																																																																																																																																																													
Which portion(s) (i.e. drainage basins) of the site have had a temporary or permanent cessation of grading, earthwork, or ground disturbance in the last 14 days?																																																																																																																																																																													
Entire Site, grading was completed prior to taking this project over on 8/28/2008.																																																																																																																																																																													
Entire Site; McArdle completed regarding of the lots 12-18 along 155th Street as of 6/2011.																																																																																																																																																																													
Which portion(s) (i.e. drainage basins) of the site do not have grading, earthwork, or ground disturbance scheduled in the next 14 days? :																																																																																																																																																																													
Entire Site, grading was completed prior to taking this project over on 8/28/2008.																																																																																																																																																																													
Entire Site; McArdle completed regarding of the lots 12-18 along 155th Street as of 6/2011.																																																																																																																																																																													
What temporary or permanent stabilization measures listed in this section are being implemented?																																																																																																																																																																													
Existing vegetation / Sod (8-2008), seed on S.B.'B' (removed basin) (4/09), Lots 11-18 was re-seeded (6/2011) Lots 12, 13, 14 were sodded (10/5/2013).																																																																																																																																																																													
Summary Questions:																																																																																																																																																																													
Are approved entrances and adjacent streets being maintained adequately?																																																																																																																																																																													
Yes																																																																																																																																																																													
Are receiving waters adjacent to the project free of any significant signs of erosion or sediment that would be associated with the construction activity?																																																																																																																																																																													
Yes																																																																																																																																																																													
Checklist Questions:																																																																																																																																																																													
Are waste materials (concrete, construction material, hazardous, etc.) being managed properly?																																																																																																																																																																													
Yes																																																																																																																																																																													
Is dust associated with the construction activity adequately controlled on the site?																																																																																																																																																																													
Yes																																																																																																																																																																													
Comments:																																																																																																																																																																													
Comments:																																																																																																																																																																													
Two houses are under construction at this time.
