Which portion(s) (i.e. drainage basins) of the site have had a temporary or permanent cessation of grading, earthwork, or ground disturbance in the last 14 days?

Ground disturbance associated with tree clearing at the 171st Street and Reynolds Street Crossings (4/2/2021). Ground disturbance associated with tree clearing along State Street (4/13/2021). Mass grading began in DEV A, DEV NT3, and the south portion of DEV NT2 (7/07/2021). Mass grading throughout the entire site. Mass grading for Reynolds Street and N 170th Street crossings (10/06/2021). Disking in the north half of the site (12/02/2021). Surcharge removal in the north portion of the site. Storm sewer installation (12/08/2021). Disking along the southwest portion of the site. Grading for N 170th Street crossing (12/16/2021). Grading at Reynolds Street crossing (12/29/2021). Construction of box culvert at N 170th Street crossing (12/29/2021). Excavation for Reynolds Street culvert. Backfilling for N 170th Street box culvert (2/16/2022). Grading for the N 170th Street box culvert (3/02/2022). Grading near Reynolds Street and 168th Street (7/19/2022). A grade stabilization structure was installed in the creek west of SB A (8/2/2022).

# Which portion(s) (i.e. drainage basins) of the site do not have grading, earthwork, or ground disturbance scheduled in the next 14 days?

Ground disturbance associated with tree clearing at the 171st Street and Reynolds Street Crossings (4/2/2021). Ground disturbance associated with tree clearing along State Street (4/13/2021). Mass grading began in DEV A, DEV NT3, and the south portion of DEV NT2 (7/07/2021). Mass grading throughout the entire site. Mass grading for Reynolds Street and N 170th Street crossings (10/06/2021). Disking in the north half of the site (12/02/2021). Surcharge removal in the north portion of the site. Storm sewer installation (12/08/2021). Disking along the southwest portion of the site. Grading for N 170th Street crossing (12/16/2021). Grading at Reynolds Street crossing (12/29/2021). Construction of box culvert at N 170th Street crossing (12/29/2021). Excavation for Reynolds Street culvert. Backfilling for N 170th Street box culvert (2/16/2022). Grading for the N 170th Street box culvert (3/02/2022). Grading near Reynolds Street and 168th Street (7/19/2022). A grade stabilization structure was installed in the creek west of SB A (8/2/2022)

# What temporary or permanent stabilization measures listed in this section are being implemented?

Existing vegetation (4/2/2021). Seeding and matting along the north side of the site, the western slopes along SB A, and the northeastern slopes (12/08/2021). Seeding along the N 170th Street crossing (9/28/2022). Matting along the N 170th Street crossing (10/05/2022).

## Checklist Questions:

1.) Are receiving waters adjacent to the project free of any significant signs of erosion or sediment that would be associated with the construction activity?)

Create Corrective Action?

### No - See Findings Section.

2.) Have disturbed areas been seeded or otherwise stabilized as required? List inactive portions of the project and if stabilization measure are adequate or needed to prevent erosion.

No

### **Create Corrective Action?**

No - See Findings Section.

3.) Are waste materials (concrete, construction material, hazardous, etc.) being managed properly?

Nο

# **Create Corrective Action?**

No - See Findings Section.

4.) Are construction entrances and adjacent streets being maintained adequately?

No

### **Create Corrective Action?**

No - See BMP Section.

5.) Is dust associated with the construction activity adequately controlled on the site?

Vaa

### **Create Corrective Action?**

N/A

# Comments:

### Comments:

Site was active for utility installation during the current inspection.

# Findings / Corrective Actions (Date):

# Findings / Corrective Actions (Date):

- 1.) Some maintenance is required in the BMP section.
- 2.) Waste concrete should be removed. Graves Development was informed to complete by 6/7/23.
- 3.) Inactive portions of the site should be stabilized. Graves Development was informed to complete by 6/7/23.
  4.) Sediment should be removed from the creek north of the Reynolds Street crossing. Graves Development was informed to complete by 6/7/23.
- 5.) E&A inspector will coordinate with SID for basin work.

Hausman began	uring the inspection on the cleanout mark during the prior to the inspection on the sof reinstalling the riser to the inspection on the inspection of the in		
SF 1	Silt Fence	W27 - I20	4/27/2021	Active	No		

Current Condition:	Good Condition - JC Excavation installed the silt fence prior to the inspection on 4/27/21. JC Excavation and Gene Graves partially cleaned out the silt fence prior to the inspection on 10/13/21. JC Excavation and Gene Graves installed silt fence along the south side of the Reynolds Street crossing prior to the inspection on 10/25/21. Sudbeck Companies was in the process of repairing the silt fence during the inspection on 3/16/22. E&A inspector will monitor for completion. Sudbeck cleaned out and repaired the silt fence prior to the 3/22/22 inspection. Sudbeck reinstalled the silt fence where removed near the center of the run prior to the inspection on 3/29/22. Graves Development reinstalled the silt fence along and over the south side of Reynolds Street Culvert prior to the inspection on 7/26/22. Graves Development backfilled the silt fence and installed a J-hook north of the crossing on the eastern portion of the silt fence prior to the inspection on 8/30/22. Walvoord Excavating backfilled and repaired the silt fence on the north side of the Reynolds Street crossing prior to the inspection on 10/05/22. Minor spoils were observed in the silt fence along the south side of the Reynolds Street crossing during the inspection on 10/26/22. The silt fence was cleaned out south of the Reynolds Street crossing prior to the inspection on 5/17/23.					
SF 2	Silt Fence	I17 - K7	4/27/2021	Active	Yes	
Current Condition:	Fair Condition - JC Excavation installed the silt fence prior to the inspection on 4/27/21. JC Excavation and Gene Graves installed silt fence along the south side of the N 170th Street crossing and the north side of the Reynolds Street crossing prior to the inspection on 10/25/21. Tab Construction graded the N 170th Street culvert and removed the silt fence around the culvert in the process prior to the inspection on 3/02/22. Sudbeck cleaned out and repaired the silt fence prior to the 3/22/22 inspection. Sudbeck repaired the silt fence north of the SB A outfall and reinstalled the silt fence where removed near the center of the run prior to the inspection on 3/29/22. Silt fence around the outfall was removed during tree clearing observed during the inspection on 7/19/22. E&A inspector will monitor to recommend reinstallation. Graves Development reinstalled the silt fence along and over the north side of Reynolds Street Culvert and the N 170th Street Culvert prior to the inspection on 7/26/22. The area of ground disturbance was stabilized by Dustin Wallis prior to the inspection on 9/21/22. A portion of the silt fence was removed along the north side of the Reynolds Street crossing prior to the inspection on 10/26/22. Silt fence was partially reinstalled prior to the 5/31/23 inspection.  1.) The silt fence should be [entirely] reinstalled [and repaired where down] north of the Reynolds Street crossing.  2.) Per city inspector, remove old portions of SF 2 west of the creek when weather allows.  1.) Graves Development was informed to complete by 11/28/22. Not done as of the last inspection. Graves Development was reminded on 12/30/22, 4/13/23 (CIR #18899), 4/28/23, 6/1/23  2.) Graves Development was informed to complete by 6/7/23.					
SF 3	Silt Fence	M6 - R2	4/27/2021	Active	No	
Current Condition:	Good Condition - Legacy Homes installed the silt fence prior to E&A's first inspection on 2/23/21. JC Excavation was in the process of repairing/reinstalling the silt fence during the inspection on 4/21/21. Silt fence was formerly identified as SF 5. JC Excavation and Gene Graves installed silt fence along the north side of the N 170th Street crossing prior to the inspection on 10/25/21. JC Excavation and Gene Graves reinstalled/extended the silt fence south from the SB B outfall to the N 170th Street crossing prior to the inspection on 12/08/21. Tab Construction graded the N 170th Street culvert and removed the silt fence around the culvert in the process prior to the inspection on 3/02/22. Sudbeck cleaned out and trenched in the silt fence prior to the 3/22/22 inspection. Sudbeck reinstalled the silt fence where removed northwest of SB B, reinstalled silt fence along the north side of the site, and installed two checks along the north side of the site prior to the inspection on 3/29/22. Graves Development reinstalled the silt fence along and over the north side of the N 170th Street Culvert prior to the inspection on 7/26/22. Graves Development installed silt fence above and below the outfall prior to the inspection on 8/30/22. Graves Development was repairing the silt fence south of the crossing during the inspection on 9/28/22. Walvoord Excavating cleaned out the silt fence south of the N 170th crossing and removed the portion where the crossing was seeded/matted prior to the inspection on 10/05/22.
