**Complaints:** None

<b>Construction Sequencing:</b>																																																																																																																																																					
<b>Which portion(s) (i.e. drainage basins) of the site have had a temporary or permanent cessation of grading, earthwork, or ground disturbance in the last 14 days?</b>																																																																																																																																																					
Entire Site, grading completed and site seeded Summer/Fall 2005. Entire Site, grading was completed in Replat Three area Lots 1-54 prior to inspection on 10/5/11 by Double D.																																																																																																																																																					
<b>Which portion(s) (i.e. drainage basins) of the site do not have grading, earthwork, or ground disturbance scheduled in the next 14 days?</b>																																																																																																																																																					
Entire Site, grading completed and site seeded Summer/Fall 2005. Entire Site, grading was completed in Replat Three area Lots 1-54 prior to inspection on 10/5/11 by Double D.																																																																																																																																																					
<b>What temporary or permanent stabilization measures listed in this section are being implemented?</b>																																																																																																																																																					
Site seeded Fall 2005 & 5/2007, stabilized entrances installed Summer 2005, Re-Seed 5/2007 by Geis; Sediment Basin E area seeded (9/2008); Areas around where handicap ramps were installed was re-seeded (4/2009); Sediment basin E area was re-seeded(4/2009); Replat three lots 1-54 was seeded (10/2011); Replat Three lots 1-54 was re-seeded (4/2012)																																																																																																																																																					
<b>SUMMARY QUESTIONS:</b>																																																																																																																																																					
<b>Are approved entrances and adjacent streets being maintained adequately?</b>																																																																																																																																																					
Yes																																																																																																																																																					
<b>Are receiving waters adjacent to the project free of any significant signs of erosion or sediment that would be associated with the construction activity?</b>																																																																																																																																																					
Yes																																																																																																																																																					
<b>CHECKLIST QUESTIONS:</b>																																																																																																																																																					
<b>Are waste materials (concrete, construction material, hazardous, etc.) being managed properly?</b>																																																																																																																																																					
Yes																																																																																																																																																					
<b>Is dust associated with the construction activity adequately controlled on the site?</b>																																																																																																																																																					
Yes																																																																																																																																																					
<b>Comments:</b>																																																																																																																																																					
<b>Comments:</b>																																																																																																																																																					
No construction was active. Inspector will continue to monitor for activity on the undeveloped portion of the site. <b>Due to winter conditions, not all BMPs could be visually verified.</b>																																																																																																																																																					
<b>Findings / Corrective Actions (Date):</b>																																																																																																																																																					
<b>Findings / Corrective Actions (Date):</b>																																																																																																																																																					
1.) No maintenance is required in the BMP section.
