E&A- P2018.316.003

Inspector: Jason Brackett		Stage
Project Name:	Pinnacle Bank - Springfield, NE CSW-201903933	2
For Week Ending:	9/14/2019	68059
Project Location:	SE corner of Platteview Road & NE-50	

Grading:	75%			
Sanitary Sewer:	0%			
Storm Sewer:	0%			
Paving:	0%			
Seeding:	0%			
Utilities:	0%			
Overall Development:	1%

Complaints:	None
--------------------	------

Construction Sequencing:
 Which portion(s) (i.e. drainage basins) of the site have had a temporary or permanent cessation of grading, earthwork, or ground disturbance in the last 14 days?

Entire site graded prior to E&A being hired to perform SWPPP inspections (7/31/19). **Excavation of SB 2 began (9/9/2019).**

Which portion(s) (i.e. drainage basins) of the site do not have grading, earthwork, or ground disturbance scheduled in the next 14 days? :

Entire site graded prior to E&A being hired to perform SWPPP inspections (7/31/19). **Excavation of SB 2 began (9/9/2019).**

What temporary or permanent stabilization measures listed in this section are being implemented?

Existing vegetation (7/31/19).

SUMMARY QUESTIONS:

Are approved entrances and adjacent streets being maintained adequately?																																																																																																																																																																																																																																															
Yes																																																																																																																																																																																																																																															
Are receiving waters adjacent to the project free of any significant signs of erosion or sediment that would be associated with the construction activity?																																																																																																																																																																																																																																															
Yes																																																																																																																																																																																																																																															
CHECKLIST QUESTIONS:																																																																																																																																																																																																																																															
Are waste materials (concrete, construction material, hazardous, etc.) being managed properly?																																																																																																																																																																																																																																															
Yes																																																																																																																																																																																																																																															
Is dust associated with the construction activity adequately controlled on the site?																																																																																																																																																																																																																																															
Yes																																																																																																																																																																																																																																															
Comments:																																																																																																																																																																																																																																															
Comments: Site was active for construction during the most recent inspection. The inspector could not access the internal portions of the site during the 8/26/19 inspection due to the perimeter fencing and locked gate.																																																																																																																																																																																																																																															
Findings / Corrective Actions (Date):																																																																																																																																																																																																																																															
Findings / Corrective Actions (Date): 1.) Some maintenance is required in the BMP section of this report.
