grading complete, minor grading at a later date (4/23/19). Grading along future location of N. Allen Street (6/17/19). Excavation for storm sewer installation in the southern portion of the site (7/15/19). Minor grading in the southern portion of the site (8/12/19). Excavation for water main installation in the northern portion of the site (11/18/19). Grading complete north of N. Allen Street (12/02/19).

Which portion(s) (i.e. drainage basins) of the site do not have grading, earthwork, or ground disturbance scheduled in the next 14 days? :

Entire Site: Grading commenced (11/8/18). Grading temporarily ceased due to winter conditions (3/5/19). Entire site: Grading resumed (4/9/19). Major grading complete, minor grading at a later date (4/23/19). Grading along future location of N. Allen Street (6/17/19). Excavation for storm sewer installation in the southern portion of the site (7/15/19). Minor grading in the southern portion of the site (8/12/19). Excavation for water main installation in the northern portion of the site (11/18/19). Grading complete north of N. Allen Street (12/02/19).

What temporary or permanent stabilization measures listed in this section are being implemented?

Existing vegetation (11/8/18). Negus & Son's Construction seeded the flat area and seeded/matted the slope north of N. Allen Street (12/02/19).

## SUMMARY QUESTIONS:

Are	approved	entrances	and	adiacent	streets	being

## No, See BMP and Findings Sections

Are receiving waters adjacent to the project free of any significant signs of erosion or sediment that would be associated with the construction activity? No, See BMP Section

maintained adequately?

### CHECKLIST QUESTIONS:

Are waste materials (concrete, construction material, hazardous, etc.) being managed properly?

No, See Findings Section

Is dust associated with the construction activity adequately controlled on the site?

## Yes

Comments:

# Comments:

Site was active during the last inspection. The rain inspection for the rain event on 12/28/19 was performed on 12/30/19.

## Findings / Corrective Actions (Date)

### Findings / Corrective Actions (Date):

1.) Some maintenance is required in the BMP section.

2.) The t-posts along the entire run of perimeter silt fence needs to be spaced properly. They are currently too wide. Negus & Son's Construction was informed to complete by 11/29/18. Not done as of the last inspection. Mikhail with Negus & Son's Construction was reminded on-site on 7/15/19. Negus & Son's Construction was reminded on 12/19/18, 1/23/19, 3/16/19, 3/29/19, 4/24/19, 5/20/19, 6/06/19, 6/18/19, 6/24/19, 7/24/19, 8/05/19, 8/27/19, 9/11/19, 9/27/19, 10/04/19, 11/04/19, 11/19/19

3.) A white fuel tank was observed on-site near CE 1 during inspection on 5/20/19. The fuel tank had appropriate secondary containment as of last inspection. E&A inspector will continue to monitor.

4.) The portable toilet on site was moved to a location near CE 1 (Y9). The portable toilet should be staked down. Negus & Son's Construction was informed to complete by 8/12/19. Not done as of the last inspection. Negus & Son's Construction was reminded on 8/27/19, 9/11/19, 9/27/19, 10/4/19, 11/04/19, 11/19/19

5.) An unapproved entrance in the northwest corner of the site was being used to access the site from Highway 36 prior to inspection on 8/26/19. The entrance should be blocked off or rock should be added to prevent trackout. Negus & Son's Construction was informed to complete by 9/02/19. Not done as of the last inspection. Negus & Son's Construction was reminded on 9/27/19, 10/04/19, 11/04/19, 11/19/19. Negus & Son's Construction blocked the entrance with a barrier prior to the inspection on 12/30/19.

6.) An email from JEO on behalf of the City of Bennington including findings from their inspection during the week ending on 12/21/19 was received, reviewed, and forwarded to the developer (Ryan Schwarz) and Negus & Son's Construction on 12/23/19. The city's findings align with those of the E&A inspector, except for installing inlet protection in on-site curb inlets, which is not being recommended at this time as the inlets drain to a basin.

Unique Name	Туре	Location	Projected Install Date	Status	Maintenance		
	Stabilized Construction						
CE 1	Entrance	N Molley Street (EE11)		Removed			
Current Condition:	Removed - The former co	onstruction entrance was p	aved prior to the inspection	on on 11/04/19.			
	Stabilized Construction						
CE 2	Entrance	N 2nd Street (B24)		Removed			
Current Condition:	Removed - The former construction entrance was paved prior to the inspection on 11/04/19.						
CW 1	Concrete Washout	Site	11/15/2018	Pending	No		
Current Condition:	waste was observed and waste. The E&A inspector	Pending - A concrete washout container was not observed on-site during the inspection on 11/04/19, however no washout waste was observed and paving is close to complete. The paving contractor (Roloff) may be actively removing washout waste. The E&A inspector will continue to monitor.
