What temporary or permanent stabilization measures listed in this section are being implemented? Existing vegetation (11/23/2022).							
Checklist Questions:							
Are receiving waters adjacent to the project free of any significant signs of erosion or sediment that would be associated with the construction activity?							
Create Corrective Action? No, See BMP Section							
Have disturbed areas been seeded or otherwise stabilized as required? List inactive portions of the project and if stabilization measure are adequate or needed to prevent erosion.							
No Create Corrective Action? No, See BMP and Findings Section							
Are waste materials (concrete, construction material, hazardous, etc.) being managed properly?							
Are waste materials (concrete, construction material, nazardous, etc.) being managed properly?							
Create Corrective Action?							
No, See BMP Section							
Are construction entrances and adjacent streets being maintained adequately?							
No							
Create Corrective Action? No, See BMP Section							
Is dust associated with the construction activity adequately controlled on the site? Yes							
Create Corrective Action?							

N/A

Comments: Comments:

Site was active during the inspection.

Findings / Corrective Actions (Date): Findings / Corrective Actions (Date): 1.) Some maintenance in BMP Section. 2.) Disturbed areas of site should be stabilized with seed and matting. Calabretto Building Group was informed to complete by 4/26/23. Not done as of last inspection. Calabretto Building Group was reminded on 5/24/23, 6/21/23, 7/20/23, 8/16/23, 9/14/23
