What temporary or permanent sta		section are being impler	nented?		
Existing vegetation (6/15/21).					
Checklist Questions:					
Are receiving waters adjacent to t No	ne project free of any significant	signs of erosion or sedii	ment that would be associated with	the construction activity?	·
Create Corrective Action?					
No, see Findings section.					
	d or otherwise stabilized as requ	ired? List inactive portio	ns of the project and if stabilization	measure are adequate or	needed to prevent erosion.
No Create Corrective Action?					
No, see Findings section.					
Are waste materials (concrete, co	nstruction material. hazardous.	tc.) being managed prop	erly?		
No		,			
Create Corrective Action?					
No, see BMPs section.					
Are construction entrances and a	djacent streets being maintained	adequately?			
No	,	· · · · · · · · · · · · · · · · · · ·			
Create Corrective Action?					
No, see BMPs section.					

Is dust associated with the construction activity adequately controlled on the site?

Yes Create Corrective Action?

N/A

Comments:

Comments:

The site was active during the most recent inspection.

Findings / Corrective Actions (Date):

Findings / Corrective Actions (Date):

1) Some maintenance is required in the BMP section of this report.

2) Sediment that has washed out beyond the property boundary at X16 and at the Ponderosa Drive culvert needs to be cleaned up and the upgradient area needs to be stabilized. DEJ/Gene Graves were informed to complete by 11/2/21. Not done as of the last inspection. DEJ/Gene Graves were reminded on 12/2/21, 2/11/22.

3) Off-site accumulation of sediment along the northeast side of the site should be cleaned up and the area restabilized (unless the area will be farmed). Gene Graves was informed to complete by 2/15/22. Not done as of the last inspection.

4) CIR 16109 was received, reviewed, and forwarded to Gene Graves on 2/25/22. CIR is consistent with E&A inspector's report.

Current Condition:	<ul> <li>Fair Condition - The developer installed the silt fence prior to the 5/18/21 inspection. Gene Graves installed silt fence around the Ponderosa Drive connection prior to the 10/13/21 inspection. Excavation spoils from sanitary excavation in the area of Ponderosa Drive damaged a small portion of the silt fence prior to the 1/18/22 inspection, the inspector will recommend repair when work is complete. Sanitary excavation around Ponderosa Drive appears to be complete as of the 2/2/22 inspection, maintenance in the area is now included below.</li> <li>1.) The silt fence is ripped at G25, O25, and R25 and needs to be repaired.</li> <li>2.) The silt fence around the Ponderosa Drive connection needs to be maintained.</li> <li>3.) Additional silt fence should be installed in the high flow areas around Ponderosa Drive.</li> <li>4.) The silt fence needs to be backfilled, cleaned out, and repaired in multiple locations.</li> <li>5.) The silt fence removed around Ponderosa for sanitary work needs to be reinstalled.</li> </ul>
