Complaints:

Construction Sequencing:

Which portion(s) (i.e. drainage basins) of the site have had a temporary or permanent cessation of grading, earthwork, or ground disturbance in the last 14 days?

Rough grading began (6/15/21). Excavation for sanitary installation (9/28/21). Grading ceased due to winter conditions (1/5/22). Excavation for utility connections along 72nd (2/8/22).

Which portion(s) (i.e. drainage basins) of the site do not have grading, earthwork, or ground disturbance scheduled in the next 14 days?

Rough grading began (6/15/21). Excavation for sanitary installation (9/28/21). Grading ceased due to winter conditions (1/5/22). Excavation for utility connections along 72nd (2/8/22)

/hat temporary or permanent stabilization measures listed in this section are being implemented?

Existing vegetation (6/15/21).

Checklist Questions:

Freate Corrective Action?

No, see Findings section.

lave disturbed areas been seeded or otherwise stabilized as required? List inactive portions of the project and if stabilization measure are adequate or ne

Create Corrective Action?

No, see Findings section.

Are waste materials (concrete, construction material, hazardous, etc.) being managed properly?

No, see BMPs section.

Are construction entrances and adjacent streets being maintained adequately?

Yes

N/A

Is dust associated with the construction activity adequately controlled on the site? Yes Create Corrective Action? N/A

Comments

Comments:

The site was inactive during the most recent inspection.

Findings / Corrective Actions (Date):

Findings / Corrective Actions (Date):

- 1) Some maintenance is required in the BMP section of this report.
- 2) Sediment that has washed out beyond the property boundary at the Ponderosa Drive (East and West) culvert needs to be cleaned up and the upgradient area needs to be stabilized. DEJ/Gene Graves were informed to complete by 11/2/21. Not done as of the last inspection. DEJ/Gene Graves were reminded on 12/2/21, 2/11/22, 3/24/22, 4/29/22, 5/5/22, 5/19/22.
- 3) Off-site accumulation of sediment along the northeast side of the site should be cleaned up and the area restabilized (unless the area will be farmed). Gene Graves was informed to complete by 2/15/22. Not done as of the last inspection. Gene Graves was reminded on 3/24/22, 4/29/22, 5/5/22, 5/19/22.
