Complaints:

# Construction Sequencing:

Which portion(s) (i.e. drainage basins) of the site have had a temporary or permanent cessation of grading, earthwork, or ground disturbance in the last 14 days?

Rough grading began (6/15/21). Excavation for sanitary installation (9/28/21). Grading ceased due to winter conditions (1/5/22). Excavation for utility connections along 72nd (2/8/22). Grading for roadways (6/9/22).

Which portion(s) (i.e. drainage basins) of the site do not have grading, earthwork, or ground disturbance scheduled in the next 14 days?

Rough grading began (6/15/21). Excavation for sanitary installation (9/28/21). Grading ceased due to winter conditions (1/5/22). Excavation for utility connections along 72nd (2/8/22). Grading for roadways (6/9/22).

What temporary or permanent stabilization measures listed in this section are being implemented?

Existing vegetation (6/15/21). Disking/seeding east side of site (7/8/22)

## Checklist Questions:

Are receiving waters adjacent to the project free of any significant signs of erosion or sediment that would be associated with the construction activity?

Yes

Create Corrective Action

N/A

Have disturbed areas been seeded or otherwise stabilized as required? List inactive portions of the project and if stabilization measure are adequate or needed to prevent erosion.

No

Create Corrective Action?

No, see Findings section.

Are waste materials (concrete, construction material, hazardous, etc.) being managed properly?

No

Create Corrective Action?

No, see BMPs section

Are construction entrances and adjacent streets being maintained adequately?

Yes

Create Corrective Action?

N/A
Is dust associated with the construction activity adequately controlled on the site?

Yes
Create Corrective Action?

N/A

Comments

#### Comments:

The site was active during the most recent inspection.

Lot 5 and 6 Replat 1 have been removed from this SWPPP and are covered by PAP-20220310-6351-GP1.

Findings / Corrective Actions (Date):

## Findings / Corrective Actions (Date):

- 1) Some maintenance is required in the BMP section of this report.
- 2) Inactive areas of the site need to be stabilized. This is a secondary recommendation to the EM called out in the BMP section below. Gene Graves/DEJ were informed to complete by 5/10/22. Not done as of the last inspection. Gene Graves/DEJ were reminded on 5/27/22, 6/10/22. DEJ began seeding during the 7/8/22 inspection.

Unique Name	Туре	Location	Projected Install Date	Status	Maintenance	
CE 1	Construction Entrance	Schram Road	7/8/2021	Active	No	
Current Condition:	Good Condition - 80% Effective - An old farm entrance is in use on site as of the 7/8/21 inspection. DEJ added rock to the entrance prior to the 1/13/22 inspection. Sudbeck reinstalled the entrance prior to the 4/1/22 inspection. Sudbeck added rock to the entrance prior to the 6/24/22 inspection.					
D 1	Diversion	E of SB C	11/12/2021	Active	No	
Current Condition:	Good Condition - DEJ installed the diversion prior to the 11/12/21 inspection. Sudbeck was in the process of cleaning out the diversion during the 6/30/22 inspection. Sudbeck maintained the diversion prior to the 7/8/22 inspection.					
D 2	Diversion	S of SB D	5/26/2022	Active	Yes	
Current Condition:	stockpiles on site).  DEJ/Gene Graves were in	uld be built in the area was	o the 5/26/22 inspection.  with SB D to divert the water al  11/2/21. Not done as of the la  10/22. Recommendations ha	ast inspection. DEJ/G	Gene Graves were	
D 3	Diversion	N of SB D	5/26/2022	Active	Yes	
Current Condition:	Fair Condition - DEJ partially installed the diversion prior to the 5/26/22 inspection. Due to paving along Schram, the diversion is no longer recommended for extension to the toe of the Schram slope as of the 6/30/22 inspection.  The diversion needs to be cleaned out and redefined.  DEJ/Gene Graves were informed to complete by 6/1/22. Not done as of the last inspection. DEJ/Gene Graves were reminded on 6/10/22. Recommendations have temporarily ceased as of the 7/28/22 inspection due to active grading in the area.
