SUMMARY QUESTIONS:						
Are approved entrances and adjacen	streets being mair	ntained adequately?				
Yes						
Are receiving waters adjacent to the	roject free of any s	significant signs of erosic	on or sediment that woul	d be associated with the	construction ac	:tivity?
No, See findings section						
CHECKLIST QUESTIONS:						
Are waste materials (concrete, constr	uction material, ha	zardous, etc.) being man	aged properly?			
Yes						
Is dust associated with the construct	on activity adequat	tely controlled on the site	?			
Yes						
Comments:						
Comments:						
1. The site was inactive during	y the last inspe	ction.				
2. An existing outlet was not ide	ntified on the SV	VPPP but is present o	n site. The inspector	has recommended si	ilt fence to filte	er the water before
leaving the site to ensure silt do	es not migrate to	the adjacent waterw	ay.			

Findings / Corrective Actions (Date): Findings / Corrective Actions (Date): 1) Some maintenance is required in the BMP section.
