Complaints:	None

Construction Sequencing:
 Which portion(s) (i.e. drainage basins) of the site have had a temporary or permanent cessation of grading, earthwork, or ground disturbance in the last 14 days?
 Grading began on the entire site (12/20/17). Major grading has finished (11/7/18).
 Which portion(s) (i.e. drainage basins) of the site do not have grading, earthwork, or ground disturbance scheduled in the next 14 days? :
 Grading began on the entire site (12/20/17). Major grading has finished (11/7/18).
 What temporary or permanent stabilization measures listed in this section are being implemented?
 Existing Vegetation (12/20/2012).

SUMMARY QUESTIONS:
 Are approved entrances and adjacent streets being maintained adequately?
 No, See BMP section
 Are receiving waters adjacent to the project free of any significant signs of erosion or sediment that would be associated with the construction activity?

Yes																																																																																																																													
CHECKLIST QUESTIONS:																																																																																																																													
Are waste materials (concrete, construction material, hazardous, etc.) being managed properly?																																																																																																																													
No, See findings section																																																																																																																													
Is dust associated with the construction activity adequately controlled on the site?																																																																																																																													
Yes																																																																																																																													
Comments:																																																																																																																													
Comments:																																																																																																																													
The site was inactive during the last inspection.																																																																																																																													
Findings / Corrective Actions (Date):																																																																																																																													
Findings / Corrective Actions (Date):																																																																																																																													
1) Some maintenance is required in the BMP section.																																																																																																																													
2) The portable toilet needs secured. McCarthy Building was informed to complete by 12/24/18. Not done as of the last inspection. McCarthy Building was reminded on 1/23/19, 3/16/19. McCarthy Building removed the portable toilet prior to the inspection on 4/17/19.																																																																																																																													
3.) Inlet protection needs to be installed over the grate inlet on the west side of the building. McCarthy Building Companies was informed to complete by 3/20/19. Not done as of the last inspection. McCarthy Building was reminded on 4/18/19
