Construction Sequencing:	i the site have had a temperature	ar normanant acception of a	rading conthwork or ground	disturbance in the last	14 dovo2				
Which portion(s) (i.e. drainage basins) of the site have had a temporary or permanent cessation of grading, earthwork, or ground disturbance in the last 14 days?									
Grading began on the entire site (1	2/20/17). Maior grading ha	s finished (11/7/18).							
Which portion(s) (i.e. drainage basins) of the site do not have grading, earthwork, or ground disturbance scheduled in the next 14 days? :									
Grading began on the entire site (12/20/17). Major grading has finished (11/7/18).									
What temporary or permanent stabilization	What temporary or permanent stabilization measures listed in this section are being implemented?								
Existing Vegetation (12/20/2012).	The areas adjacent to the b	uilding and parking lot v	vere sodded and seeded/	matted. The rest of	f the site was seeded				
(5/1/19).									
SUMMARY QUESTIONS:									
	Are approved entrances and adjacent streets being maintained adequately?								
Yes		- f	we will be a set of the divide de-						
Are receiving waters adjacent to the proj	ect free of any significant signs	of erosion or sediment that	would be associated with the	construction activity?					
Yes									
CHECKLIST QUESTIONS:									
Are waste materials (concrete, construct	ion material, hazardous, etc.) be	ing managed properly?							
Yes	, , , , , , , , , , , , , , , , , , , ,								
Is dust associated with the construction	activity adequately controlled o	n the site?							
Yes									
Comments:									
Comments:									
The site was open for business as	of the last inspection. Cons	struction is complete and	d the site is waiting on se	ed germination and	l establishment.				
Findings / Corrective Actions (Da									
Findings / Corrective Actions (Da									
1) Some maintenance is required i	n the BMP section.
