Summary Questions:					
cuminary questions.	A starte being meinteined edemostel.				

Are approved entrances and adjacent streets being maintained adequately?

Yes

Are receiving waters adjacent to the project free of any significant signs of erosion or sediment that would be associated with the construction activity? Yes ______

Checklist Questions:

Are waste materials (concrete, construction material, hazardous, etc.) being managed properly?

No, see BMP section.

Is dust associated with the construction activity adequately controlled on the site? Yes

Comments: Comments:

 Site is active for home building.
 SB 4 is being partially closed to accommodate the dirt from the grading of the new area as of 11/9/17. The inspector will continue to monitor its effectiveness. The surrounding area is primarily built out so the remaining basin can accommodate the flow coming from the adjacent lots. The basin was working effectively as of the 8/13/18 inspection.
