Comments:							
	uring the most recent inspection	on Replat 6 was active	or utility installation during	the most recent ins	pection The		
1. Site was inactive for home building during the most recent inspection. Replat 6 was active for utility installation during the most recent inspection. The Rainwood Road project was active during the most recent inspection.							
2. SB 4 is being partially closed to accommodate the dirt from the grading of the new area as of 11/9/17. The inspector will continue to monitor its effectiveness.							
The surrounding area is primarily built out so the remaining basin can accommodate the flow coming from the adjacent lots. The basin was working effectively							
as of the 8/13/18 inspection.							
Findings / Corrective Actions (Date):							
Findings / Corrective Actions (Date):							
1.) Some maintenance is required in the	BMP section						
		Disturbed groep through	wit the site should be temp	orarily atabilized on	d construction traffic
