RE: PERMIT TRACKING NUMBER: CSW-202206412, City Permit NOI220055
Issuance of storm water discharge authorization for the 7100 Husker Circle - Enterprise Rent-a-Car construction project located at 7100 Husker Circle, Lincoln, Nebraska in Lancaster, NE.

Mr. Bill Newgard:

This is to acknowledge receipt of the CSW-NOI form on 7/18/2022, for the project referenced above. Submission of this CSW-NOI and SWPPP fulfills the notification requirements set forth in the City of Lincoln Ordinance(s) and Design Standards, and the NPDES General permit for Storm Water Discharges for Construction Sites (NPDES Permit NER 210000). Please review the entire permit to ensure compliance.

The authorization provided for sediment and erosion control does not provide authorization to proceed with soil disturbing activities if other required permits (e.g. 404 permits, floodplain fill permits, etc.) have not been obtained.

The conditions on a construction project can change daily: your SWPPP is a dynamic plan and may have to be adapted to the current conditions on the project to remain in compliance. The City of Lincoln requires SWPPP inspection reports be submitted electronically through the NDEE CSW Stormwater Portal.

Once the project is complete and the disturbed are(a) stabilized, login and access the storm water portal to submit the Notice of Termination form.
